

## 9<sup>th</sup> NYSORA International Symposium: Advances in Regional Anesthesia, Pain and Perioperative Medicine

08-10 November, 2024

### Friday, 08 November

|             |                                                                                                                                                                               |                           |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| 14:00-14:10 | Welcome Address                                                                                                                                                               | Amar Salti & Admir Hadzic |
| 14:10-14:50 | <div><div>Spinal</div><div><b>PRO &amp; CON</b></div><div>General Anesthesia</div></div> <div><i>for Hip Fractures</i></div> <div>Admir Hadzic</div> <div>Peter Merjavý</div> |                           |
| 14:50-15:10 | Spinal Anaesthesia in Aortic Stenosis                                                                                                                                         | Imré Van Herreweghe       |
| 15:10-15:30 | Difficult Spinal Anaesthesia: Strategies                                                                                                                                      | Admir Hadzic              |
| 15:30-15:50 | Coffee Break                                                                                                                                                                  |                           |
| 15:50-16:10 | Coagulopathy and Blocks                                                                                                                                                       | Christine Al Yahchouchi   |
| 16:10-16:30 | Obstetric Anesthesia and Analgesia: Best Techniques And Protocols                                                                                                             | Astrid Barbé              |
| 16:30-16:50 | Neuraxial Ultrasound for Obese Patients (in the labor ward)                                                                                                                   | Waleed Riad Soliman       |
| 16:50-17:10 | Obstetric Emergencies: Management                                                                                                                                             | Astrid Barbé              |
| 17:10-17:30 | Complications after Labor Analgesia                                                                                                                                           | Astrid Van Lantschoot     |

## 9<sup>th</sup> NYSORA International Symposium: Advances in Regional Anesthesia, Pain and Perioperative Medicine

08-10 November, 2024

### Saturday, 09 November

|                    |                                                                                     |                                      |
|--------------------|-------------------------------------------------------------------------------------|--------------------------------------|
| <b>08:30-08:50</b> | High turnover blocks: Strategy, Techniques, Organization, and LA Selection          | Admir Hadzic                         |
| <b>08:50-09:10</b> | Block-nurse: The Value and Training                                                 | Catherine Vandepitte                 |
| <b>09:10-09:30</b> | Perineural Catheters: Over or Through the Needle? Techniques & Practical Management | Admir Hadzic/Catherine Vandepitte    |
| <b>09:30-09:50</b> | Regional Anesthesia Fellowship: Why?                                                | Frédéric Polus                       |
| <b>09:50-10:10</b> | Is AI Making Books Obsolete? And Which Anesthesia Journals Should you Read?         | Admir Hadzic & Peter Merjavy         |
| <b>10:10-10:30</b> | <b>Coffee Break</b>                                                                 |                                      |
| <b>10:30-10:50</b> | Analgesia After THA: Hip-Peng Block New Insights                                    | Lucia Balocco                        |
| <b>10:50-11:10</b> | Geniculate Nerve Blocks for TKA: Does It Make Sense & Techniques                    | Thibaut Vanneste                     |
| <b>11:10-11:30</b> | Pocus Ultrasound: What You Should Know                                              | Imré Van Herreweghe & Frédéric Polus |
| <b>11:30-12:30</b> | Case Report Presentations (fellows) - Interactive Voting Session                    | Moderator: Admir Hadzic              |
| <b>12:30-13:30</b> | <b>Lunch Break</b>                                                                  |                                      |
| <b>13:30-13:50</b> | Analgesia Protocols from the ED to OR to ICU                                        | Sam Van Boxstael                     |
| <b>13:50-14:10</b> | The Neurolytic Hip Block : A New Era For The Old And Frail?                         | Astrid Van Lantschoot                |
| <b>14:10-14:40</b> | Perioperative Pain Management: State Of The Art                                     | Thibaut Vanneste                     |
| <b>14:40-15:00</b> | <b>Coffee Break</b>                                                                 |                                      |
| <b>15:00-15:20</b> | Post-op or Post-block Neurological Symptoms: Management                             | Amar Salti                           |
| <b>15:20-15:40</b> | Radiofrequency Treatment for Chronic Shoudler, Knee and Hip Pain                    | Thibaut Vanneste                     |

## 9<sup>th</sup> NYSORA International Symposium: Advances in Regional Anesthesia, Pain and Perioperative Medicine

08-10 November, 2024

### Saturday, 09 November

|                    |                                          |                   |
|--------------------|------------------------------------------|-------------------|
| <b>15:40-16:00</b> | Neck Pain Interventions                  | Mohamed El Toukhi |
